

## CSRN Industry Showcase

The Industry Showcase was created with a vision dedicating a section on the CSRN website that would highlight projects that have integrated the RTRN (Real Time Reference Networks) into the overall project. This could cover an array of disciplines such as Boundary, Mapping or Construction, as well as standard or innovative uses. The over-arching unity being the integration of the RTRN; and how the network integration achieved innovation, quality, schedule to simply name a few. The highlighted projects will allow an audience to view how the networks are used (with their varied uses) that help showcase the RTRN technology, and ultimately enhance the CSRN market share and membership.

With the overall vision of the Industry Showcase in mind, we need to create a structure to streamline the projects from entities to the website, the overall basic components that need to be put in place are listed below, we need everyone's help in defining the details or the roadmap to make this a success.

We need your help mapping the details and molding the final structure of the Industry Showcase. The major components are listed below with brief explanations, we want to capture your ideas and further enhance the Industry Showcase:

### **Project Submission Format**

Entities want to submit a project – how do they do this?  
Are there submission guidelines? If so what should they be?  
In what format do they submit the project?  
What would be required (detail of project, etc.)?  
Other ideas.....

### **Project Criteria**

Do we have basic project criteria in order to be eligible?  
Do we have more detailed criteria?  
Other ideas.....

### **Project Reviewers**

Who would review the projects?  
Other ideas.....

### **Project Acceptance**

How do we determine a project to be accepted?  
How many projects do we accept a year?  
How long do they remain on the website?  
Other ideas.....

### **Announcement for Project Submission**

How do we announce?  
In what format?  
When do we announce?  
Other ideas.....

**Your Ideas are Valuable to US – together we will get it done!**
